ELRIG Networking Event - Drug Delivery Technologies

18th May 2017, 6.00pm - 8.30pm

Biohub, Alderley Park

Alderley Park, Nether, Alderley, Cheshire, SK10 4TG

ELRIG, in collaboration with the Biohub, Alderley Park are pleased to announce our first free-to-attend networking event of 2017 in the Manchester area. This event will focus on the challenges of finding “novel ways to drug undruggable targets, novel ways to deliver new drugs and ways to solve drug stability.” The meeting will consist of informal presentations by guest speakers followed by a free food and a drinks reception to facilitate further networking.

This event will feature presentations from:

David Cook
Blueberry Therapeutics

“Novel approaches to meeting the challenges of antimicrobial drug resistance.”

Claus Jorgensen
Cancer Research UK,
Manchester Institute

"Targeting non-cell autonomous dependencies in Pancreatic Cancer."

Matthew Ling
Product Development Manager
AstraZeneca

‘Opportunities and Challenges in the Design and Development of Nanomedicines’

Why attend?

Communicate

Expand your local network and share research with like-minded individuals

Collaborate

Explore collaboration opportunities between academia and the pharma/biotech industry

Innovate

Expand your local network and share research with like-minded individuals

ELRIG networking events are FREE-TO-ATTEND.
