

# Research & Innovation 2017

**Cells as Models of Disease & New Therapeutics**  
29<sup>th</sup> - 30<sup>th</sup> March 2017, HOMERTON COLLEGE, CAMBRIDGE

## Immuno-oncology - Wednesday 29th March 2017

Immuno-therapy is revolutionising the way we approach treatment for cancer. A greater understanding of the complex interactions and combinations of responses has enabled modern drug discovery to unlock new therapies and many more new opportunities in this field. This track will present the latest science from leading opinion leaders that will help you understand the latest developments and build on these opportunities.

### SESSION CHAIRS:

**Stuart Farrow**, Cancer Research Technology & **Rahul Roychoudhuri**, Babraham Institute

TIME	SPEAKER	TITLE
09:05 - 09:15	<b>Session Chairs</b>	Opening Remarks & Introduction of Keynote
09:15 - 10:15	<b>Plenary Keynote: Ian Tomlinson</b> (Apollo Therapeutics)	Real Discovery Partnership: Making industrial-academic interactions work
10:15 - 10:30	<b>VENDOR SNAPSHOTS</b>	
10:30 - 11:00	<b>COFFEE BREAK</b>	
11:00 - 11:10	<b>Session Chairs</b>	Introductions
11:10 - 11:40	<b>Neil Brewis</b> (F-star Biotechnology)	The use of bispecific antibodies to modulate anti-tumour immune responses
11:40 - 11:45	<b>VENDOR SNAPSHOT</b>	
11:45 - 12:15	<b>Andrew Mellor</b> (Newcastle University)	The Impact of DNA Sensing and Tumour Immunogenicity on Tumour Growth
12:15 - 12:25	<b>VENDOR SNAPSHOTS</b>	
12:25 - 12:55	<b>POSTER TASTERS</b>	
12:55 - 14:00	<b>LUNCH (EXHIBITION &amp; POSTERS)</b>	
14:00 - 14:30	<b>Emma King</b> (Southampton University)	Window studies in head and neck cancer
14:30 - 15:00	<b>Ann White</b> (UCB Celltech)	Isotype, Fc receptor interactions and epitope specificity: critical roles in therapeutic antibody function
15:00 - 15:30	<b>COFFEE BREAK</b>	
15:30 - 16:00	<b>Awen Gallimore</b> (Cardiff University)	Modulating Tregs for Cancer Immunotherapy
16:00 - 16:30	<b>Juan José Lasarte</b> (Pamplona University)	Targeting Foxp3 transcription Factor for cancer therapy
16:30 - 17:00	<b>Rahul Roychoudhuri</b> (Babraham Institute)	Towards small molecule immunostimulatory therapy for cancer
17:00 - 19:00	<b>NETWORKING, DRINKS RECEPTION &amp; WINE TASTING</b>
