

Drug Discovery 2016

ACC, LIVERPOOL
13th - 14th October 2016

#ELRIGDD16

Labcyte Workshop

THURSDAY 13TH OCTOBER: ROOM 11C

Labcyte are excited to be presenting a great line-up of speakers and sessions at ELRIG Drug Discovery 2016, in Liverpool, UK. Their seminar highlighting the Echo acoustic liquid dispensing technology and how it's impacting personalised medicine and drug discovery, will feature speakers from Uppsala University, Institute for Molecular Medicine Finland, and AstraZeneca. Be sure to stop by the Labcyte Stand E2 to learn more about their groundbreaking technology and how it can enable your science and research.

TRACK 1: PERSONALISED HEALTH AND IMPACT OF ACOUSTIC DISPENSING

| TIME | PRESENTER | TRACK |
|---------------|---|---|
| 9:30 - 9:45 | Labcyte | Introduction to TRACK 1 |
| 9:45 - 10:15 | Kristin Blom Biomedical Scientist, Ph.D.-Student Uppsala University Hospital, Uppsala, Sweden | Automated Acoustic Dispensing; Clinic and Research |
| 10:20 - 10:50 | Krister Wennerberg FIMM-EMBL Group Leader, Institute of Molecular Medicine Finland | Targeting Individual Cancers Using Chemical Systems Medicine |
| 10:50 - 11:30 | COFFEE BREAK | |

TRACK 2: FUTURE IMPACT OF ACOUSTIC DISPENSING IN DRUG DISCOVERY PROCESSES

| | | |
|---------------|---|---|
| 11:30 - 11:40 | Labcyte | Introduction to TRACK 2 |
| 11:40 - 12:10 | Clive Green Global Compound Manager, AstraZeneca | From Routine to Extreme Cherry Picking. Design of New Acoustically Compatible Storage Tubes for Liquid Samples |
| 12:15- 12:45 | Ian Sinclair Associate Principal Scientist, AstraZeneca | Echo-MS A Versatile Platform for Ultrafast Mass Spectrometry Analysis in Drug Discovery |
