

Drug Discovery 2018

ExCeL, London
9TH – 10TH October 2018

Chemistry Innovations: Tuesday 9TH October

Session Chairs: Martin Swarbrick (CRUK TDL) & Nicole Hamblin (Charles River)

The role of medicinal chemistry in small molecule drug discovery is well established and continues to deliver a strong pipeline of novel medicines for patients. In recent years medicinal chemists have also been pushing the boundaries of their discipline, applying medicinal chemistry principles to large molecule drug design and to the field of chemical biology to deliver novel approaches, technologies and tools to study and manipulate biological systems.

This session will feature leading industry and academic medicinal chemists describing successful delivery of clinical candidates and showcasing recent advances in novel chemical biology approaches, with application to both small and large molecule drug discovery.

Plenary Keynote Speaker

Professor Janet Thornton
(European Bioinformatics Institute)

Confirmed Speakers

Bernard Barlaam (AstraZeneca)
Gemma Mudd (Bicycle Therapeutics)
Matthew Cheeseman (Institute of Cancer Research)
Andrew Cridland (Charles River)
Mark Frigerio (Abzena)
Doru Roiban (GlaxoSmithKline)

Call for Posters

For an opportunity to present your research in one of our poster spotlight sessions, submit your abstract by **17TH August 2018**.

The deadline for general poster abstract submission is **5TH October 2018**.

Sponsorship & Exhibition

For further information on sponsorship & exhibition opportunities, including multi-show discounts, please e-mail ELRIG General Manager: Sanj Kumar
