# ELRIG Networking Event

## RNA binding enzymes: a new epigenetic era on the up?

28th June 2017, 6.00pm - 8.30pm

**Babraham Institute**  
Babraham Hall, Babraham, Cambridge CB22 3AT

ELRIG, return to Cambridge for the latest in our series of free-to-attend networking event. The title of this event is “RNA binding enzymes: a new epigenetic era on the up?” The meeting will consist of informal presentations by guest speakers followed by a free food and a drinks reception to facilitate further networking. This event will feature presentations from:

**Dan Leggate**  
Storm Therapeutics

“Targeting RNA epigenetics to treat disease.”

**Martin Turner**  
Babraham Institute

“RNA binding proteins as regulators of lymphocyte development and activation.”

**Davide Gianni**  
AstraZeneca

“Drug Discovery in Epigenetics: Opportunities and Challenges.”

### Why attend?

#### Communicate

Expand your local network and share research with like-minded individuals

#### Collaborate

Explore collaboration opportunities between academia and the pharma/biotech industry

#### Innovate

Expand your local network and share research with like-minded individuals

ELRIG networking events are FREE-TO-ATTEND.
