Get reliable screening data fast with CRISPRko, CRISPRa, and RNAi Libraries

We know your time in the lab is more precious than ever. Let us help you make the most of it. Our CRISPRko, CRISPRa, and RNAi libraries are all designed with your requirements in mind, such as:

- Algorithm designed sequences for functionality and specificity
- Chemical modifications to improve performance and limit cytotoxicity
- 96- and 384-well plate formats
- Pooled lentiviral libraries provided as high-titer ready-to-use lentiviral particles
