Discovery**
Cambridge, UK
18 – 19 November

Metabolic Disease Forum
Copenhagen, DK
November

DECEMBER

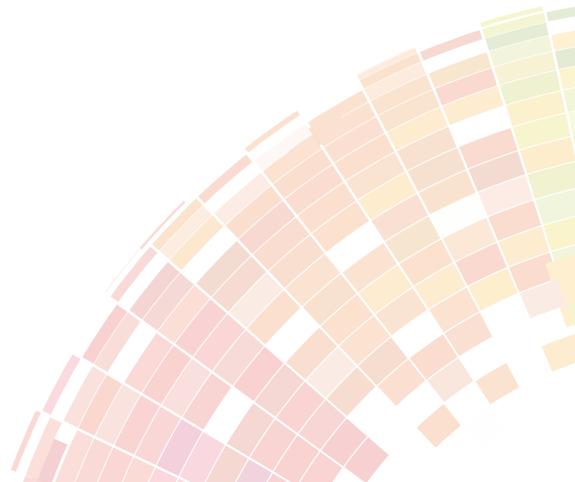

**ELRIG – SLAS Joint
Networking Forum**
London, UK
3 December

Drug Discovery Forum
Paris, FR
December

WHY SPONSOR AN ELRIG EVENT?

1. **High accessibility** - Unlike most other life science conferences you are familiar with, all ELRIG events are free to attend, removing barriers to inclusion and supporting optimal attendance levels, so you can meet more past, existing, and future clients and contacts.
2. **Diverse engagement** - All segments of the ELRIG community are invited to attend our events, from early career professionals to senior leaders, meaning you can forge relationships with tomorrow's influencers while striking deals with today's decision-makers.
3. **Quality audience** - With expertly curated programmes of leading-edge content, ELRIG events attract not just quantity but also quality of delegates to proactively engage with your products and services.
4. **Shared objectives** - Innovative technologies, products, and services are integral to our specialised scientific content, ensuring elevated brand awareness and networking opportunities with perfectly aligned target audiences.
5. **Aligned venues** - All host venues are carefully selected for their central locations, easy accessibility, technology capabilities and sustainable credentials.
6. **Corporate collaboration** - In some cases, ELRIG events are held within pharmaceutical companies and open to the entire company, not just registered delegates, enabling strategic engagement across multiple stakeholder levels.
7. **Unrivalled reputation** - ELRIG events are well-reputed for their market-leading exhibitions, poster sessions and add-on areas. Exhibition facilities at host venues are a key consideration during the selection process, to deliver the best exhibition experience for sponsors and delegates.
8. **Transparent pricing** - Our exhibition booth prices are all-inclusive, including flooring, electrical supply, lead generation technology, drayage, and furniture. There are no surprise or hidden costs.
9. **Strategic consultation** - The ELRIG team regularly consults with corporate partners and event suppliers to evolve compelling and results-driven exhibiting and sponsorship opportunities that support your objectives.
10. **Networking focus** - All ELRIG event programmes are purpose-designed to include substantive networking to support you in maximising interaction with delegates.
11. **Digital exposure** - Sponsorship includes pre and post event digital marketing to boost your brand awareness and presence at events, including:
 - 22,000 ELRIG community members with distinct email addresses
 - 300,000 unique page views annually, with 5,000 community members following us on LinkedIn, 1,540 on X (formerly Twitter), and an increasing number on our new Instagram account @ELRIG_UK

If you require any further information or have any questions about sponsorship of ELRIG events, please contact [ELRIG](#), or visit the [website](#).

TYPES OF EVENT

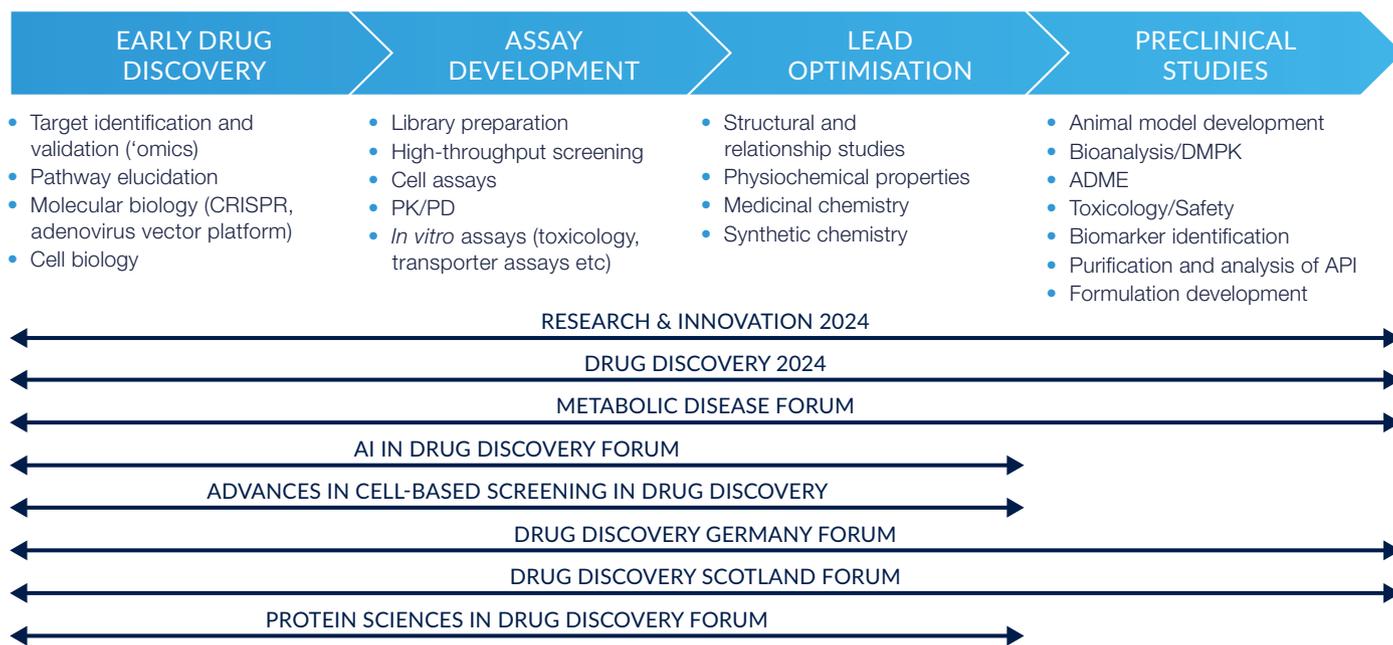

In 2024, ELRIG will hold three types of events:

Conferences - ELRIG's conferences are unmissable landmarks in every researcher's calendar. These immersive two-day events delve into content that is pivotal to progress in drug discovery. With a lineup of at least 15 handpicked speakers, our conferences provide a deep dive into the latest state-of-the-art research and innovations. Every conference includes an exhibition running concurrently, creating an environment conducive to networking and collaboration. You can expect an audience size ranging from 300 to 1,500, with ample opportunities to make meaningful connections. Notably, our flagship event, Drug Discovery, is held annually in the autumn. It attracts over 150 varied exhibitors and provides a platform that is second-to-none for learning, engagement, and visibility.

Forums - Our forums are designed to break down barriers to attendance by bringing specialised insights to community members in different countries. These one-day events are focused on targeted topics, with six dynamic speakers enabling a deep dive into key subjects. A small table-top exhibition further enriches the experience. The forum format is ideal for broadening your perspective while connecting with approximately 100 like-minded delegates, in an informal atmosphere where the exchange is insightful and specific for maximum impact.

Networking Events - Networking events by ELRIG are hosted in key locations across Europe. They are brief but impactful gatherings, featuring two influential speakers with limited delegate numbers to optimise engagement opportunity. These intimate events are ideal for making connections, exchanging ideas, and forming collaborations in an atmosphere tailored for depth and connection.

The infographic below demonstrates the suitability of this year's conferences and forums across the following four key research categories:

EXHIBITION AND SPONSORSHIP OPPORTUNITIES

Technology Spotlight - Optimise your visibility with a budget-friendly package that guarantees increased footfall — a five-minute Technology Spotlight presentation. These presentations are purpose designed to highlight a specific product or service, putting your brand centre stage, elevating your presence, and driving engagement. Your podium session will be integrated into the published program and presented to the entire audience.

Industry Insider - Advance your status as an industry thought leader with a superior package featuring a 15-minute podium presentation within the main programme. The extended presentation timeframe empowers you to introduce your company, spotlight a specific offering, and reinforce your message with a compelling case study. It is an effective way to demonstrate your expertise and innovations, and make a lasting impact on your target audience.

Conference Partner - Showcase your latest breakthroughs, leading-edge technology or product updates to the entire audience, with a presentation equivalent to the length of an invited podium session. Your content will align with the track theme, exploring the need and science of your innovation without being overtly sales driven, although you are recommended to conclude on a powerful note by referencing product availability and your Partner's booth. It is a prime opportunity to maximise impact and make a lasting impression.

LIMITED SUPPLEMENTARY OPPORTUNITY FOR EXHIBITION PARTNERS

B2B Partnering Package - Boost your networking potential with this highly sought after add-on package to turn connections into collaborations. ELRIG will arrange four 30-minute 1:1 meetings for you with key decision-makers from pharma, biotech, CROs, and academia, from the organisations you select from our curated list, (available upon request). These intimate sessions are yours to own, unscripted and uninterrupted, in a dedicated private meeting room complete with audio-visual facilities for impactful presentations. Please note that B2B packages are available on a first come first served basis at just £2,500.

ELRIG 2024 Conferences	Standard Booth	Technology Spotlight Partner	Industry Insider Partner	Conference Partner
Research and Innovation 2024	£3,900	£4,700	£6,150	£12,000
Advances in Cell-Based Screening in Drug Discovery 2024	£3,900	£4,700	£6,150	£12,000
Drug Discovery 2024	£4,900	£5,700	£7,150	£12,000
Protein Sciences in Drug Discovery 2024	£3,900	£4,700	£6,150	£12,000

All prices are in GBP and exclusive of VAT.

Exclusive sponsorship opportunities are available for all ELRIG events. Please see our broad range of options for elevated brand visibility and engagement, to suit different budgets and objectives. They range from classic exhibition booths to a dynamic digital footprint on our website and social media platforms.

Furthermore, investment in a booth includes the option of a talk time slot within the main podium program, for amplified impact and influential presence during an event.

Sponsorship Benefit	Standard Booth	Technology Spotlight Partner	Industry Insider Partner	Conference Partner
Table-top booth (shell-scheme at Drug Discovery)	✓	✓	✓	✓
GDPR-consented registration & attendee email list, pre & post event (subject to usage policy)	✓	✓	✓	✓

FORUMS

Each ELRIG forum focuses on a specialist area of importance to our communities. As the forums evolve annually, diverse topics are spotlighted and different UK and European cities are visited. Partners can expect a discerning and receptive audience with a profound interest in the very specific themes of every gathering. These events are compelling platforms for professionals deeply invested in the targeted subjects shaping the future of life sciences and drug discovery.

Typically, each forum draws 100 – 150 delegates and follows a similar format:

- Six invited speakers
- Three vendor presentations
- Two panel discussions
- Networking session
- Six table-top exhibits with a five-minute talk*

** Occasionally additional table-top exhibition spaces are available due to specific venue logistics, however these do not have a talk associated. Please refer to the Terms and Conditions on Page 8.*

WEBINARS AND NETWORKING

ELRIG's webinars and networking events encourage optimal participation opportunities amongst the entire community. This extends to the inclusion of in-person networking organised by the Early Careers Professionals Group in our annual programme. These events underscore our ethos that everyone is welcome, irrespective of seniority or location.

While there are no formal exhibitions in this event category, interested organisations can generate enhanced visibility by sponsoring our webinars and networking events. In-person events are hosted in multiple UK and European locations. Detailed pricing is available on request for both online and live events.

OUR 2024 EVENTS SERIES

ELRIG is thrilled to unveil an exceptional series of events in 2024, including:

- Four Conferences
- Five Forums
- Nine Networking events

All our events are designed and delivered to facilitate meaningful interactions and ultimately serve as change-enabling platforms.

With unrivalled content programmes, ELRIG events continue to be in demand amongst delegates, and highly attractive to potential sponsors.

OUR COMMITMENT TO INCLUSIVE EVENTS

We are proactively amplifying our equity, diversity, and inclusion (EDI) efforts to keep pace with an increasingly diverse community base, which currently comprises:

- 75% from the UK, 13% from the rest of Europe, 3% from the USA, and 9% from the rest of world
- 50% female
- 35% non-white

Our ongoing focuses in this area include:

- Addressing the physical differences between wet lab and computer work
- Ensuring the speaker line-up is ethnically diverse, gender balanced and experience balanced in line with differing attendee profiles
- Catering for multiple dietary and cultural requirements
- Providing a family room for delegates on maternity and paternity leave
- Aligning with the environmental, social and governance (ESG) strategies of our delegates, exhibitors, and all other stakeholders

WHY REGISTER?

Our events are where innovation is expected, and concepts lead to the development of drugs that will enhance and save lives for years to come.

You are invited to join this journey of knowledge-sharing and collaboration, by coming together with industry luminaries, thought leaders, and peers, defining the future of scientific excellence and transformation.

With a robust marketing campaign reaching our extensive 22,000-strong community, these events consistently sell out. It is testament to the demand generated by our unique approach and quality of content.

Secure your place early to lock in valuable networking opportunities and participation in the conversations influencing the future of the life sciences industry.

If you require any further information or have any questions about sponsorship of ELRIG events, please contact [ELRIG](#), or visit the [website](#).

ABOUT ELRIG

ELRIG is a market-leading UK-based not-for-profit volunteer-led organisation, operated by and for the life sciences community, and dedicated to the delivery of unmatched scientific meetings and conferences.

Our events are dynamic forums, where industry experts, academic thought leaders, and biopharma professionals come together and share pivotal information.

Spanning UK and Europe, our event programmes specifically address the evolving needs of the drug discovery and life science communities.

Our flagship event, “Drug Discovery” consistently attracts over 1,000 delegates, the largest conference of its kind in Europe.

STRATEGIC PILLARS

EVENTS

- Best in class events
- Curated topical content
- Free to attend

PRESENCE & AWARENESS

- Trusted brand
- Cross-community collaboration
- Growing digital presence

EQUALITY, DIVERSITY & INCLUSIVITY

- Accessible to all
- Promoting engagement and collaboration
- Encouraging diversity

SUSTAINABILITY

- Ethical and transparent
- Operational excellence
- Sustainable events

THE ELRIG APPROACH

ELRIG is committed to uniting the life sciences and drug discovery communities to:

- Learn
- Share
- Connect
- Innovate
- Collaborate

This collective journey is brought to life through our annual programme of conferences, networking events, webinars, and digital content.

Our distinct approach to events is rooted in our commitment to accessibility. Unlike traditional conferences, all our events are open to delegates free of charge. As a result, knowledge-sharing remains uninhibited and not exclusive to an elite group.

To uphold open access, the operational costs of our events are covered through the generous contributions of exhibitors and sponsors. This collaborative approach enables us to host impactful meetings of minds, while removing financial barriers to participation.

As a result, a diverse community of over 22,000 life science professionals across all segments and levels are empowered to contribute to change-enabling conversations.

COMMUNITY IMPACT

We proactively collaborate with other well-established and respected professional societies in our pursuit of enriching content. Consequently, we can infuse both breadth and depth into our offerings. This makes our events not just gatherings, but intersections where diverse perspectives converge.

ELRIG events are shaping the future of discourse and collaboration, and contributing to the advancement of innovations in the life sciences and drug discovery domain. Moreover, every voice has a chance to be heard and knowledge is not confined.
